CAREER OBJECTIVE

Aspiring Full-Stack Web Developer with over three years of hands-on experience in academic and personal projects. Proficient in building clean, responsive, and user-centric websites using HTML, CSS, and JavaScript. My goal is to apply my design-focused approach and problem-solving skills to a professional development team while continuing to master modern web technologies.

EDUCATION

BS in Information Technology – Web Development

Holy Angel University - Angeles City

2023 – Present

- President's List – 1st Year, 1st Semester
- Dean's List – 1st Year (2nd Sem), 2nd Year (1st & 2nd Sem)

EXPERIENCE

Graphic Designer (Freelance)

Upwork
